## **Resources for Residents Where To Turn For Help**

This informational sheet will help you or your family member access treatment for a drug and/or alcohol problem, as well as give some other resource information. The first step in accessing treatment is for the individual to get a professional assessment to determine the extent of the problem and the type of treatment and recovery plan needed. Adult and adolescent services are available throughout Bucks County. For more information, please call our Approval of Care Department at 215-773-9643 or visit [www.bcdac.org](http://www.bcdac.org).

**To access treatment for those who have private health insurance**, call the number on the back of the insurance card listed under Mental Health/Substance Abuse.

**To access treatment for those with Medical Assistance**, call Magellan Health Services at 877-769-9784 and they will give information as to the nearest treatment agency for an assessment or go to one of the listed assessment sites below.

**To access information regarding Veteran's Benefits**, call 877-222-8387 to find out eligibility for services. Individuals who are Veterans are eligible for county funding.

**For individuals with no insurance**, there may be county funded treatment available as well as other supportive services. The individual can walk into one of the assessments sites listed below. The individual will need to bring proof of Bucks County residency, and complete a Medical Assistance application. **Individuals that are considered a priority population, such as pregnant injection substance users, pregnant substance users, injection substance users, overdose survivors, veterans and adolescents are exempt from any limitations. Preferential treatment is given to pregnant females.**
